Hostetter, Keach & Cassada, LLC

In the last couple months many people have been confused to here the name Hostetter, Keach & Cassada being used around the company. In June Hostetter & Keach, Inc. entered a strategic partnership with Cassada Construction Services to form Hostetter, Keach & Cassada Construction, LLC (HKC). The new com-

pany will be focusing on government work, particularly work that is set aside for Service Disable Veteran Owned Small Businesses. Our partner in this venture, Mr. Galan Cassada is a 37 year veteran of the Army Corps of Engineers with tours in Vietnam and Iraq. Galan was discharged from the military in 2007 with a

service disability. After his discharge Galan approached Butch and Greg about forming a company to compete for government work that was set aside for Service Disabled Veteran Owned Small Businesses. Galan has worked in the past with Hostetter and Keach, Inc. when he was construction manager for Clariant.

Employee Profile: Darren Sisk

Darren Sisk is a man of many talents. From his carpentry work to building computers to Tae Kwon Do Darren seems to be a jack of all trades. A Charlotte native, born in Presbyterian Hospital, Darren now resides in Indian Trail, NC. He graduated from Sun Valley High School and then spent two years at the Union County Career Center

studying Building Construction. From there he worked with Andrew Roby Construction and Teleo/Jordan Homes, before joining R.T. Dooley and eventually Hostetter & Keach where he has worked for over a decade.

At HKI Darren's duties as a field superintendent include working with the owners, architects, engineers, sub-

contractors, and project manager to insure that the job is completed on time and to HKI standards.

When Darren has free time he practices Tae Kwon Do (he studied it for 10 years and has a black belt), works on his self built computer, or works on building projects around his house.

Employee Contributions

Project Mangers and Superintendents, be sure to let us know if you have good photo opportunities on-site. We are always looking for photos to include in the Newsletter or in marketing materials. You can email photos and any personal news you feel like sharing to frank@hkigc.com.

Preparing for the Future

HKI is keeping up with the future by investing in the education of its employees. Recently Darren Sisk and Rick Patterson com-

pleted OSHA's 30 hour class. Frank Hostetter and Keith Webster are working towards their LEED certification. We

also have OSHA 10 hour training planned for field employees in April 09.
